I am a passionate Full-Stack Developer with expertise in JavaScript, React, Node.js, PHP, and MySQL. I have built and deployed web applications like a real estate platform and a blogging system, focusing on scalable backends and smooth user experiences. Always eager to learn and contribute to innovative projects.

## TECHNICAL SKILLS

**Front-End:** HTML, CSS, JavaScript (ES6+), React.js, Tailwind CSS, Bootstrap

**Back-End:** Node.js, Express.js, PHP, REST APIs, JWT Authentication

**Database & Cloud:** MySQL, MongoDB, Firebase, Render

**Tools & DevOps:** Git, GitHub, Postman, Docker (Basic), VS Code

## EDUCATION

**Saurashtra University, Rajkot** – Kamani Science College

*Amreli, Gujarat*

**Bachelor Of Computer Application (B.C.A)**

2023 – 2025

- Developed dynamic **real estate and blogging platforms** with full-stack technologies
- Relevant coursework: **Database Management, Web Development, Software Engineering**

## EXPERIENCE

**Freelance Full-Stack Developer** | *Amreli, India* | 2023 – Present

- Developed [House Treasure](#), a real estate platform with dynamic property listings, agent management, and user inquiries.
- Built [MERN Blog](#), an interactive blogging platform with JWT authentication, comment system, and search functionality.
- Integrated **payment gateways**, improved database performance, and optimized UI using **Locomotive Scroll & animations** for a seamless user experience.

## PROJECTS

**House Treasure – Real Estate Platform** | [Live Site](#)

- Built a **feature-rich real estate website** using **PHP, MySQLi, and JavaScript**.
- Implemented **dynamic service pricing, agent dashboards, and user inquiries**.
- Optimized UI with **Locomotive Scroll & custom animations** for better interactivity.

**MERN Blog – Blogging Platform** | [Live Site](#)

- Developed a **full-stack blogging website** using **React, Node.js, Express, MongoDB**.
- Implemented **user authentication (JWT), comments, and search functionality**.
- Designed a **responsive UI** using Tailwind CSS for a smooth user experience.

## ACHIEVEMENTS

- **Built and launched two full-stack platforms** with user-driven features and performance optimizations.
- **Successfully deployed two full-stack web platforms**, handling real-time user interactions and data management.
